### PROFILE

I am a Software developer specializing in Laravel and React.js. I have knowledge, in developing both frontend and backend components crafting websites. My proficiency in Laravel allows me to create scalable and user centric applications. Additionally my expertise in React.js ensures smooth and engaging user experiences. Committed to continuous learning, I stay updated with the latest industry trends to deliver high-quality web solutions. Passionate about innovation, I am eager to contribute effectively to any development team.

### WORK EXPERIENCE

#### Laravel Developer

CrudOps Pvt Ltd

2023 April-2024 April

- Developed and maintained web applications using Laravel and React.js, focusing on scalability and user experience enhancements.
- Collaborated closely with cross-functional teams to design and implement responsive front-end interfaces using HTML, CSS, and JavaScript frameworks like Bootstrap and Tailwind CSS.
- Implemented RESTful APIs and integrated with various databases such as MySQL and PostgreSQL, ensuring seamless data management and efficient query performance.

### PROJECTS

#### Affiliated Marketing Website

- Developed and deployed an affiliate website aimed at facilitating price comparisons across gaming platforms, enhancing user accessibility to product information.
- Expertly utilized the Laravel framework to architect and develop the website.
- Collaborated with UX/UI designers to implement intuitive user interfaces and streamline navigation, enhancing overall user experience and satisfaction on the platform.

#### Virtual Call Application

- Collaborated with backend developer to create a virtual calling application.
- Designed and implemented the frontend using CodeIgniter and JavaScript, focusing on user interface design, client-side validation, and integration with backend APIs.
- Developed the backend using Python Flask, implementing functionalities for user authentication, data storage, and real-time communication

#### Ecommerce Website

- Developed a Laravel-based eCommerce platform, utilizing React.js for dynamic frontend interactions and responsive user interfaces.
- Implemented custom product catalog features and search functionalities, enhancing user accessibility to a wide range of products.
- Optimized site performance and user experience through responsive design and smooth navigation, resulting in increased customer satisfaction and retention.
